

PRESS RELEASE

EAWBC: FIRST INTERNATIONAL ASSOCIATION IN GENEVA FOR THE PROMOTION AND ENHANCEMENT OF THE FEMALE BAND CONDUCTOR

The EAWBC lays the foundations for international collaboration in supporting an ever growing profession.

Geneva, 8th September 2020 - The **European Association of Women Band Conductors** is pleased to announce that in Geneva on the 20th May 2020 it was established as an **international association serving the female world of music**, in particular that of the band, with the intention of **enhancing and promoting the profession of the European Female Band conductor** in the fields of musical culture, entertainment, communication and art in general.

The project arose as a result of the thoughts of its President, Antonella Bona, on her own training which led her to think about creating a **space where the artistes can strengthen their own leadership skills**.

Our mission will be that of forming a **network for, and promoting the figure of, the Female Conductor** as a model of success to offer to all of those who wish to follow ambitious paths for professional supremacy.

The philosophy of thought that guides our objectives can be shared indiscriminately by all who recognise themselves in our model of discipline and achievement.

In our projects we will do an in depth study of the technical aspects of musical material using also a **growth study centred around the individual and her own personality**, developing and strengthening their **self-awareness, their own attitude towards music and their communication skills**.

PRESIDENT

M^o Antonella Bona
